### Professional Summary

---

Results-driven Full Stack Developer with over 2.5 years of experience building scalable web applications and high-performance e-commerce solutions. Expert in React, Node.js, and AWS ecosystem, with a proven track record of architecting centralized systems for international brands. Specialized in payment gateway orchestration, automated fulfillment workflows, and end-to-end system design in fast-paced startup environments.

### Technical Skills

---

**Frontend:** React.js, Next.js 14, Tailwind CSS, Redux Toolkit, Framer Motion, GSAP.

**Backend:** Node.js (Express), Laravel, .NET Core, RESTful APIs, Microservices.

**Cloud & DevOps:** AWS (EC2, S3, CloudFront), Cloudways, Docker, Git/GitHub, CI/CD.

**Databases:** PostgreSQL, MySQL, MongoDB, Redis (Caching).

**Tools & DevOps:** Git, GitHub, Postman, Composer, npm, VS Code, Power BI;

### Experience

---

**Full Stack Developer | Ahmed Al Maghribi Perfumes, UAE**

*Jul 2025 – Present*

- **System Architecture:** Engineered a centralized React/Express admin portal to manage international e-commerce operations across 6 countries, unifying fragmented product data and order flows into a single source of truth.
- **Discount Engine:** Developed a complex logic module supporting diverse promotional scenarios, including BXGY (Buy X Get Y), FOC (Free of Charge), and tiered discount structures, increasing marketing flexibility and sales.
- **FinTech Integration:** Acted as the Lead Point of Contact (POC) for payment infrastructure; integrated and maintained Tabby, Tamara, Paytabs, and Payfort, resolving high-stakes transactional discrepancies.
- **AWS & Performance:** Optimized server-side performance and deployment on AWS-backed cloud infrastructure, maintaining 99.9% uptime and handling high-traffic product launches using Next.js
- **Data Strategy:** Migrated LocalStorage cart logic to a persistent Database-driven system, enabling cross-device sessions and improving user retention by 25%.

- **Enterprise Interfaces:** Built complex dashboards using React.js and Redux Toolkit, optimizing the rendering of large-scale datasets with advanced filtering.
- **Backend & Automation:** Developed secure .NET Core APIs and utilized Hangfire for automated background jobs (email notifications/reporting), ensuring non-blocking performance.
- **R&D:** Delivered cross-platform prototypes using Electron.js and React Native, expanding the company's product reach.

**Full Stack Intern | QSpiders, India | Jan 2024 – Sept 2024**

- Integrated React.js frontends with Spring Boot Microservices, focusing on REST API security and Hibernate data mapping.

**Selected Projects**

---

**The Diet Cascade | Lead Developer (Freelance)**

- **System Design:** Engineered a dual-portal ecosystem using React and Node.js. Built an Admin Dashboard for SEO metadata management, blog publishing, and diet plan distribution.
- **User Features:** Developed a Client Portal featuring secure Email Verification and dynamic progress tracking using interactive charts and image-based transformation logs.
- **Performance:** Revamped the landing page for a mobile-first experience, achieving 100/100 Google Lighthouse scores.

**Bullion Stock Trading | React & Node.js**

- Created a simulation platform with automated tax calculations and real-time usage analytics for user vs. admin interfaces.

**Procon Media & Sober Real Estate (Marketing & PropTech)**

- **Deployment:** Managed end-to-end deployment pipelines, SSL configuration, and hosting migrations on Hostinger/cPanel.
- **Customization:** Tailored high-performance web solutions and CMS architectures to specific brand identities, ensuring 100% alignment with client UI/UX requirements.

**Education & Certifications**

---

**Bachelor of Engineering (Mechanical):** Pillai College of Engineering, India (2023).

**Certifications:** Java Full Stack (QSpiders), PowerBI (Skill Nation), Data Structures (intrnForte).
